

S603

1Ω高频电流表 SMA

Short description

P603是1Ω探头，用于直接测量集成电路引脚上的高频电流。测量时，把它接到电源引脚 (Vdd/Vss) 或信号引脚上。1Ω高频电流表拥有引脚触点，借此可以接触到并对单个的引脚并进行测量。

By means of an SMA - connection the probe can be easily connected to the IC test boards.

The S603 probe is designed for measuring on ground lines (Vss).

Technical parameters

频率范围	0 ... 3 GHz
Shunt 电阻	1 Ω
Adjustment Resistance	49 Ω
输出电阻 (no load)	50 Ω
Transfer factor voltage U_{out} / U_{in}	-6 dB
Transfer factor Current U_{out} / I_{in}	-6 dBΩ
最大功率损耗	2.5 W
Connectors	50 Ω, SMA
重量	42 g
尺寸 (L x W x H)	(60 x 45 x 14) mm
