Seminar EPDR:

Electronic Product Design and Retrofit for EMC

Summary

This is a fast-paced, intense two-day seminar that gives engineering professionals the ability to successfully recognize, troubleshoot & solve the most difficult EMI problems. This class is designed to help engineers with both 1) regulatory noise problems (European EMC Directive 2014/30/EU) and 2) non-regulatory noise problems that involve interference from one circuit to another circuit during normal product operation.

Organization

Duration: 2 Days
